

INTRODUCTION OF INGVILD AURDAL, CANDIDATE OF 1ST VISE-PRESIDENT

- My name is Ingvild Aurdal and I'm 50 years old. I have two children, 22 and 25 years old. I live in a small village called Voss in Norway, with great fishing, skiing, and wildlife areas. I work in a school where I bring the kids out in the nature, doing different wildlife and fishing activities every day.
- I have been member of the Norwegian Competition Federation for Fly – Fishing (NKFF) since 2011 and President of the same federation since 2019.
- I've been fishing since I was 5 years, but I started with fly-fishing in 2008.
- In 2010 I got my fly-casting instructor license. And I have been having 3-5 fly-casting courses per year since then.
- I started competing in fly-fishing in 2011 and I participated in the WFFC in Italy the same year as manager/reserve.
- In 2014 I participated in the EFFC in Sweden with a ladies team.
- The same ladies team participated in EFFC in Italy in 2015, where I was fishing captain.
- In Polen 2016, I participated as individual in EFFC. I also participated in WFFC in Vail, Colorado in 2016.
- In 2017, I participated in WFFC in Slovakia. I was also International Supervisor in both EFFC and WMFFC in Portugal.
- I participated with a ladies team in EFFC in Czech Republic in 2018, where I was fishing captain. I was also a ghost-angler in WFFC in Italy the same year and International Supervisor in WMFFC in Spain.
- In 2019, I participated with a ladies team in EFFC in Montenegro, where I was fishing captain. I was also International Supervisor in WYFFC in Czech Republic the same year.
- In 2022, we arranged the 1st WLFFC in Norway, where I participated with a ladies team and I was fishing captain. I was also International Supervisor in WYFFC and WMFFC in Italy the same year.

I have been active for many years, I know the system, I know so many of the competitors and I truly believe I will be a good candidate for the position as 1st Vise-president in FIPS-Mouche.

Kind Regards

Ingvild Aurdal

Ingvild Aurdal
