FIPS-Mouche technical commission application for Gillies Breckenridge

Dear Stefan,

On behalf of the Scottish Anglers National Association Ltd, I would like to nominate Gillies Breckenridge for a place on the FIPS-Mouche technical commission.

As a founding member and sole architect of the Scottish National Fly Fishing League (SNFFL), Gillies brings almost twenty-years' experience of organising and running Scotland's senior international set up. He is responsible for ensuring the smooth running of the season-long league system, and the implementation of the selection process for Scotland's World, European, and Masters teams.

In his current role as a FIPS Mouche International Supervisor, he is passionate about keeping his members up to date with rule changes and developments across the international arena.

Over the years, he has taken the SNFFL from a minor consideration amongst Scottish anglers, to two full leagues and, due to demand, is now developing a third tier, which opens up pathways for all anglers keen to represent Scotland at senior international level.

He was also instrumental in introducing a streamlined, yet more defined scoring system for our league set up – all in keeping with FIPS Mouche rules. This was trialled successfully over the last two seasons and will be taken forward into the future, to the delight of our members.

I believe Gillies will make a worthy addition to your technical team and I'm sure he will contribute well to your future success.

Yours in Sport

Archie Ferguson
